Elizabeth Maxwell

City of Crystal Lake (Façade Grant)

Hope your well, I have included pictures of the before and after, in regards to this years renovation project. It seems to be going pretty well. The mason has developed a special tool for duplicating some of the rock and mortar design, all is done by hand, no mechanical work. So to date, we have now completed the foundation restoration (2016-2017) this year we just completed, removal of the old sills, removal of the exterior storms. (They are now inside). All the aluminum siding has been removed. I am very pleased with the removal of the mismatched grout. The winter months should age the mortar and get an even closer color match. I also included copies of the waivers from oth companies. In addition the bank statement, showing the payouts were done.

If you need more let me know, and I would also be open to give an update at one of your meetings.
