

McHenry County Water Forum

“Flooding in McHenry County”

Join us on Wednesday, September 11, 2019

5:30 P.M. to 8:00 P.M.

at the McHenry County College (MCC) Auditorium in Crystal Lake

The volume and intensity of rainfall is increasing.
This raises the potential of flooding for our
properties and communities.

Join us at the Annual Water Forum to learn more
about flooding in McHenry County, what to expect in
the future, and how you or municipalities can adapt.

You are invited to join us for this exciting free program

McHenry County College
Luecht Auditorium and Conference Center
8900 US Hwy 14, Building B
Crystal Lake, Illinois 60012-2761

The program will begin at 5:30 P.M. with delicious food
served by Duke’s Ale House and Kitchen.

Our goal is for guests to go home smarter, and fuller,
than they arrived.

You also have the opportunity to speak one-on-one
with a variety of water resource professionals including
engineers, ecologists, planners, well drillers, and
conservationists so bring your water-related questions.

The Water Forum’s main event features an incredible
line-up of guest speakers who specialize in managing
flooding and water resources.

Presentations run from 6:15 P.M. to 8:00 P.M. and will include the following speakers:

“Flooding in Illinois” - Paul Osman (Chief, Illinois Department of Natural Resources)

“Increasing Precipitation in the Chicago Region” - Dr. James Angel (State Climatologist, Illinois State Water Survey)

“Floodplain Management in McHenry County” - Joanna Colletti (Manager – McHenry County Water Resources Division)

“Approaches to Address Local Flooding” - Paul Siegfried/Dan Bounds (Professional Engineers — Baxter & Woodman)

The Water Forum is free and open to the public.

Hosted by the McHenry County Department of Planning & Development With Key Sponsorship from McHenry County College.
Catering provided thanks to a generous donation by the Heartland Realtors Organization.
