**375 Spruce Lane – Simplified Residential Variation**  
**Project Review for Planning and Zoning Commission**

---

<b><u>Meeting Date:</u></b>	October 6, 2021
<b><u>Request:</u></b>	Simplified Residential Variation from Article 3-200 to allow a 12-foot rear yard setback, a variation of 8 feet from the 20-foot minimum for a single-story addition.
<b><u>Location:</u></b>	375 Spruce Lane
<b><u>Acreage:</u></b>	Approximately 9,590 square feet
<b><u>Existing Zoning:</u></b>	R-1 – Single-Family Residential
<b><u>Surrounding Properties:</u></b>	North: R-1 – Single-Family Residential South: R-1 – Single-Family Residential East: R-1 – Single-Family Residential West: R-1 – Single-Family Residential
<b><u>Staff Contact:</u></b>	Katie Rivard (815.356.3612)

---

**Background:**

- **Existing Use:** The subject property is currently improved with a single-family residence.
- **UDO Requirements:** The minimum required rear yard setback for a principal structure in the R-1 zoning district is 20 feet.

**Development Analysis:**

**General:**

- **Request:** The petitioner is requesting a variation to allow an 8-foot encroachment into the minimum required 20-foot rear yard setback for a single-story addition.
- **Land Use:** The Comprehensive Land Use map shows the area as Urban Residential, which is an appropriate land use designation.
- **Zoning:** The site is zoned R-1 Single-Family Residential.

**Request Overview:**

- The Petitioner is requesting a single-story addition to be located at the southeasterly portion of the home with a proposed setback of 12 feet from the rear property line instead of the minimum required 20 feet.

- The proposed addition is approximately 425 square feet.
- The existing home is a two-story residence. The proposed addition would be one-story only.
- The proposed addition matches the architectural style of the existing house. The addition includes four windows on the rear (east) elevation and two on the left side (south) elevation.
- Per the submitted application, all bedrooms are located on the second floor. The property owners would like to add a master bedroom on the first floor to allow them to age in place. Additionally, per the petitioner, the existing placement of the residence results in a minimal rear yard with limited area for an addition.

**Comprehensive Land Use Plan 2030 Vision Summary Review:**

The Comprehensive Plan designates the subject property as Urban Residential, which allows for existing and future single-family residential uses. The following goal is applicable to this request:

Land Use - Residential

**Goal: Encourage a diversity of high quality housing in appropriate locations throughout the city that supports a variety of lifestyles and invigorates community character.**

This can be accomplished with the following supporting action:

**Supporting Action:** Preserve and enhance the character and livability of existing residential area with architectural and development guidelines. Promote safe, clean and well-maintained housing by encouraging regular repair and maintenance of housing.

**Findings of Fact:**

**ZONING ORDINANCE VARIATION**

The petitioner is requesting a variation from Article 3-200 to allow a 12-foot rear yard setback, a variation of 8 feet for a single-story addition. The Unified Development Ordinance lists specific standards for the review and approval of a variation. The granting of a variation rests upon the applicant proving practical difficulty or hardship caused by the Ordinance requirements as they relate to the property. To be considered a zoning hardship, the specific zoning requirements; setbacks, lot width and lot area must create a unique situation on this property. It is the responsibility of the petitioner to prove hardship at the Planning and Zoning Commission public hearing.

Standards

When evidence in a specific case shows conclusively that literal enforcement of any provision of this Ordinance would result in a practical difficulty or particular hardship because:

- a. The plight of the property owner is due to unique circumstances, such as, unusual surroundings or conditions of the property involved, or by reason of exceptional

narrowness, shallowness or shape of a zoning lot, or because of unique topography, or underground conditions.

*Meets*                       *Does not meet*

b. Also, that the variation, if granted, will not alter the essential character of the locality.

*Meets*                       *Does not meet*

For the purposes of supplementing the above standards, the Commission may take into consideration the extent to which the following facts favorable to the application have been established by the evidence presented at the public hearing:

a. That the conditions upon which the application for variation is based would not be applicable generally to other property within the same zoning classification;

*Meets*                       *Does not meet*

b. That the alleged difficulty or hardship has not been created by any person presently having interest in the property;

*Meets*                       *Does not meet*

c. That the granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located; or

*Meets*                       *Does not meet*

d. That the proposed variation will not impair an adequate supply of light or air to adjacent property, will not unreasonably diminish or impair the property values of adjacent property, will not unreasonably increase congestion in the public streets, substantially increase the danger of fire or otherwise endanger public safety.

*Meets*                       *Does not meet*

Where the evidence is not found to justify such conditions, that fact shall be reported to the City Council with a recommendation that the variation be denied.

**Recommended Conditions:**

If a motion to recommend approval of the petitioner's request is made, the following conditions are recommended:

1. Approved plans, reflecting staff and advisory board recommendations, as approved by the City Council:
  - A. Application (Atkinson, received 09/01/2021)
  - B. Site Plan (ALA Architects, dated 06/10/2021, received 09/01/2021)
  - C. Elevations (ALA Architects, dated 06/10/2021, received 09/01/2021)
  
2. The proposed addition should match the existing exterior in material and color.

3. The petitioner must provide the existing and proposed impervious amounts with the permit application for review.
4. The petitioner shall address all of the review comments and requirements of the Community Development Department.
