Warning of Risk

The City of Crystal Lake is committed to conducting recreation programs and activities in a safe manner and holds the safety of participants in high regard. The staff continually strives to reduce risks and insists that all participants follow safety rules and instructions that are designed to protect the participants' safety. However, participants and parents/guardians of minor's scuba diving must recognize that there is an inherent risk of injury or death when choosing to participate in scuba diving.

You are solely responsible for determining if you or your minor child/ward is physically fit and/or skilled for the activities contemplated by this agreement. It is always advisable, especially if the participant is pregnant, disabled in any way or recently suffered an illness, injury or impairment, to consult your physician before undertaking any physical activity.

Scuba diving is intended to challenge and engage in the physical, mental and emotional resources of each participant. Despite careful and proper preparation, instruction, medical advice, conditioning and equipment, there is still a risk of serious injury or death when participating in a particular activity, and participants must understand that certain risks, dangers and injuries due to acts of God, inclement weather, slipping, falling, inadequate or defective equipment, failure in supervision, or instruction, poor skill level or conditioning, carelessness, horseplay, premises defects and all other circumstances inherent to indoor and outdoor recreational activities/programs exist. In this regard, it must be recognized that it is impossible for the City of Crystal Lake to guarantee absolute safety.
