

Response to Resistance

300.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable response to resistance. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every employee of this department is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner.

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Control Devices and Techniques and Conducted Energy Device policies.

300.1.1 DEFINITIONS

Definitions related to this policy include:

Deadly force - Force reasonably anticipated and intended to create a substantial likelihood of causing death or very serious injury.

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the officer or another person.

Force - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows themselves to be searched, escorted, handcuffed or restrained.

De-escalation- Actions used by officers, when safe and without compromising law enforcement priorities, to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources are available to resolve the situation. The goal of de-escalation is to gain the voluntary compliance of subjects, when feasible, and thereby reduce, or eliminate, the need to use physical force.

Imminent - Ready to take place; impending. Note that imminent does not mean immediate or instantaneous.

Totality of the circumstances - All facts and circumstances known to the officer at the time, taken as a whole, including the conduct of the officer and the subject leading up to the response to resistance.

300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation, and a careful balancing of all interests.

300.2.1 DUTY TO INTERVENE AND REPORT

Employees of the Department have an obligation within their individual scope of authority and training to protect the public and other employees. It shall be the duty of every police department employee present at any scene where unreasonable force is being applied to either stop, or attempt to stop, another employee when their observations lead them to believe that the use of force being applied is inconsistent with this general order. Employees shall notify a supervisor any time they observe another agency employee or public safety associate engage in any unreasonable use of force, violation of department policy, state/provincial or Federal law, or local ordinance.

Non-Sworn Employees of the Department who are not trained in use of force shall not physically intervene when their observations lead them to believe that a sworn employee's use of force is improper. However, the employee shall immediately notify their immediate supervisor of their observations.

In no event shall the report be submitted more than 5 days after the incident. (720 ILCS 5/7-16)

300.3 RESPONSE TO RESISTANCE

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate response to resistance in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

Employees will use de-escalation techniques to prevent or reduce the need for force when it is safe and feasible to do so based on the totality of the circumstances. This includes continually assessing the situation and modifying the use of force as circumstances change and in ways that are consistent with officer safety, including stopping the use of force when it is no longer necessary. Examples of de-escalation techniques include but are not limited to:

- a. providing a warning and exercising persuasion and advice prior to the use of force.
- b. determining whether the employee may be able to stabilize the situation through the use of time, distance, or positioning to isolate and contain a subject.
- c. requesting additional personnel to respond or make use of specialized units or equipment including crisis intervention team trained officers, as necessary and appropriate.

300.3.1 USE OF FORCE TO EFFECT AN ARREST

An officer may use any force which they reasonably believes to be necessary, under the totality of the circumstances, to effect an arrest, or to be necessary to defend themselves or another from bodily harm while making an arrest (720 ILCS 5/7-5).

300.3.2 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include, but are not limited to:

- (a) Immediacy and severity of the threat to officers or others.
- (b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
- (c) Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
- (d) The effects of drugs or alcohol.
- (e) Subject's mental state or capacity.
- (f) Proximity of weapons or dangerous improvised devices.
- (g) The degree to which the subject has been effectively restrained and their ability to resist despite being restrained.
- (h) The availability of other options and their possible effectiveness.
- (i) Seriousness of the suspected offense or reason for contact with the individual.
- (j) Training and experience of the officer.
- (k) Potential for injury to officers, suspects and others.

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

- (l) Whether the person appears to be resisting, attempting to evade arrest by flight or is attacking the officer.
- (m) The risk and reasonably foreseeable consequences of escape.
- (n) The apparent need for immediate control of the subject or a prompt resolution of the situation.
- (o) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
- (p) Prior contacts with the subject or awareness of any propensity for violence.
- (q) Any other exigent circumstances.

300.3.3 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the person can comply with the direction or orders of the officer.
- (c) Whether the person has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.4 CAROTID CONTROL HOLD

The Crystal Lake Police Department does not train in the carotid control hold. As such, use of the carotid control hold is prohibited.

300.4 DEADLY FORCE APPLICATIONS

When reasonable, the officer shall, prior to the use of deadly force, make efforts to identify themselves as a peace officer and to warn that deadly force may be used.

Use of deadly force is justified in the following circumstances involving imminent threat or imminent risk:

- (a) An officer may use deadly force to protect themselves or others from what they reasonably believes is an imminent threat of death or serious bodily injury.
- (b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and (720 ILCS 5/7-5):

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

1. The officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person (except to the subject themselves) if the individual is not immediately apprehended.
2. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes that the individual has a weapon or is attempting to access one and intends to immediately use it against the officer or another person. An imminent danger may also exist if the individual is capable of causing serious bodily injury or death without a weapon, and the officer believes the individual intends to immediately do so (720 ILCS 5/7-5).

300.4.1 SHOOTING AT OR FROM MOVING VEHICLES

Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.4.2 WARNING SHOTS

The Crystal Lake Police Department prohibits the use of warning shots.

300.4.3 DESTRUCTION OF ANIMALS

Officers are authorized to use firearms to stop an animal in circumstances where the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

In circumstances in which officers have sufficient advance notice that a potentially dangerous animal may be encountered, officers should develop reasonable contingency plans for dealing with the animal (e.g., fire extinguisher, TASER device, oleoresin capsicum (OC) spray, animal control officer). Nothing in this policy shall prohibit any officer from shooting a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

With the approval of a supervisor, an officer may euthanize an animal that is so badly injured that human compassion requires its removal from further suffering and where other dispositions are impractical.

300.4.4 CHOKEHOLDS

An employee shall not apply direct pressure to the throat, windpipe or airway of a person with the intent to reduce or prevent the intake of air (chokehold) unless deadly force is justified (720 ILCS 5/7-5.5). A employee shall not use a chokehold or any lesser contact with the throat or neck area of another in order to prevent the destruction of evidence by ingestion (720 ILCS 5/7-5.5).

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

Any individual who has had a choke hold applied, regardless of whether they were rendered unconscious, shall be promptly examined by paramedics or other qualified medical personnel and shall be monitored until examined by paramedics or other appropriate medical personnel.

The officer shall inform any person receiving custody, or any person placed in a position of providing care, that the individual has been subjected to a chokehold and whether the subject lost consciousness as a result.

Any officer attempting or applying a chokehold shall promptly notify a supervisor of the use or attempted use of such hold.

The use or attempted use of a chokehold shall be thoroughly documented by the officer in any related reports.

300.5 REPORTING THE RESPONSE TO RESISTANCE

Any employee of this department who responds to resistance shall immediately report their actions to the on duty supervisor and document the incident promptly, completely and accurately in a police report. The officer should articulate the factors perceived and why they believed the force used was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure or law. Examples of incidents involving Officers responding to resistance which require a report include but are not limited to:

- (a) The discharge of a firearm, for other than training or recreational purposes.
- (b) Any action that results in, or is alleged to have resulted in, injury or death of another person.
- (c) Application of force through the use of lethal or less lethal weapons, including:
 - 1. The pointing of a firearm
 - 2. The pointing of a Taser
- (d) Application of weaponless physical force including:
 - 1. Hand to hand control techniques
 - 2. Pain compliance measures
 - 3. Pressure point applications
 - 4. Come-alongs

See the Report Preparation Policy for additional circumstances that may require documentation.

300.5.1 NOTIFICATIONS TO SUPERVISORS

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

- (a) The application caused a visible injury.

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

- (b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
- (c) The individual subjected to the force complained of injury or continuing pain.
- (d) The individual indicates intent to pursue litigation.
- (e) Any application of the TASER device or control device.
- (f) Any application of a restraint device other than handcuffs, shackles, or belly chains.
- (g) The individual subjected to the force was rendered unconscious.
- (h) An individual was struck or kicked.
- (i) An individual alleges unreasonable force was used or that any of the above has occurred.

300.6 MEDICAL CONSIDERATIONS

Once it is reasonably safe to do so, medical assistance shall be obtained for any person who exhibits signs of physical distress, has sustained visible injury, expresses a complaint of injury or continuing pain, or was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until the individual can be medically assessed. Individuals should not be placed on their stomachs for an extended period, as this could impair their ability to breathe (720 ILCS 5/7-15).

Based upon the officer's initial assessment of the nature and extent of the individual's injuries, medical assistance may consist of examination by an emergency medical services provider or medical personnel at a hospital or jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Individuals who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics, and imperviousness to pain, or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away.

See the Medical Aid and Response Policy for additional guidelines.

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

300.7 SUPERVISOR RESPONSIBILITY

Excluding other emergency situations, the Shift Sergeant will respond to an incident in which there has been a reported application of force. At the scene, the supervisor is expected to:

- (a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.
- (c) When possible, separately obtain a recorded interview with the subject upon whom force was applied. If this interview is conducted without the person having voluntarily waived their *Miranda* rights, the following shall apply:
 1. The content of the interview should not be summarized or included in any related criminal charges.
 2. The fact that a recorded interview was conducted should be documented in a property or other report.
 3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
- (d) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas. These photographs should be retained until all potential for civil litigation has expired.
- (e) Identify any witnesses not already included in related reports.
- (f) Review and approve all related reports.
- (g) Determine if there is any indication that the subject may pursue civil litigation.
 1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.
- (h) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy non-compliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.7.1 SHIFT SERGEANT RESPONSIBILITY

The Shift Sergeant shall review each incident involving resistance and the response to that resistance by any personnel within their command. This is to ensure compliance within this policy and to address any training issues.

300.8 TRAINING

Officers will receive at a minimum, annual training on this policy and demonstrate their knowledge and understanding.

Crystal Lake Police Department

City of Crystal Lake PD Policy Manual

Response to Resistance

300.9 RESPONSE TO RESISTANCE ANALYSIS

At least annually, the Patrol Unit Commander shall prepare an analysis report on all incidents involving an officer's response to resistance where force was used. The report will be submitted to the Chief of Police and shall only include:

- (a) The identification of any trends in the response to resistance by employees.
- (b) Training needs recommendations.
- (c) Equipment needs recommendations.
- (d) Policy revision recommendations.

The analysis report shall not contain the names of officers, suspects or case numbers.
